Review of Applications

**Application 2016-04Z** by Michael Eadie requesting a side setback variance for a proposed shed. The proposed location does not comply with 120-19 of the Rush Town Code. Property is located at 7476 West Henrietta Road and is zoned Commercial.

The Conservation Board reviewed the above named application and did not find any aspect of the proposal to have a significant impact on the environment.

Board Business

As suggested by Vice Chairperson Lederman, Board Members are interested in providing feedback to the Town Board as it reviews and progresses with the Rush Riverside Refuge property at 6565 East River Road. The town-owned parcel has a number of important environmental features including but not limited to water and woods. Discussion took place about adding a possible boat launch and the considerations effecting water flow and erosion. Wilderness camping on the property and environmental effects were also discussed. Agricultural leasing is also of interest. Councilperson Kusse expressed agreement in having the Conservation Board Members provide feedback on a potential but more concrete plan that will be discussed and presented to the public in the future.

The meeting was adjourned by Chairperson Watson at 8:10 pm.
